## **KIWI BALM.**

A multifunctional treatment for skin disorders, through to chronic wound healing.

Kiwi Balm is a combination of three tested and registered as safe compounds which all meet regulation requirements, being Totarol, GFX, and Magna Shield.

### **What is in it?**

Totarol is the world's new bioactive broad spectrum anti-bacterial, anti-inflammatory and strong anti-oxidant extract from the New Zealand totara tree.

GFX is a citrus extract blend of citric bioflavonoids which have anti-inflammatory properties, which stimulates collagen production (blood flow and blood vessel formation) and has analgesic properties.

Magna Shield is a waterless topical gel which provides an optimum moist healing environment and provides the cells with an energy source.

### **What it does.**

Kiwi Balm brings together the three technologies for a product with activities of broad spectrum anti-microbial, anti-inflammatory, blood vessel stimulation and formation (angiogenesis), stimulation of cell and tissue proliferation and analgesic properties for pain free application.

### **Application uses.**

Serious wound applications, skin infections, sports injuries, burns, ulcers, pressure sores, cuts, insect bites, scratches reduces infections, pimples, bruising, tattoo repair, eczema, psoriasis, itchy skin, dermatitis, shingles, warts, rashes, scars, pet care, equine and animal care.

### **How to apply.**

Apply to the surface of the body.

Use as a topical application.

Use repeatedly as required.

### **Questions.**
